

Endorsement 19

BABTAC Janssen 60% Peels

This policy is hereby extended to indemnify the policyholder for the provision of 60% Janssen Peels by way of BABTAC/Balens approved devices.

Exclusions applicable

The insured shall not undertake treatment of clients:

- Who have not received a thorough consultation and been provided with the appropriate before and aftercare advice in written format including, if applicable, time limits and precautions for peel application.
- Unless manufacturers' guidelines are adhered to regarding the amount of time the peel is left on the skin. The policy will exclude claims where manufacturers' advice/guidelines have not been followed.
- Who are taking photo sensitive medications including Roaccutane
- Who have medical conditions that cause thinning of the skin or loss of sensitivity
- Who have open cuts and wounds, allergies to Aspirin or use of Retinoic Acid or Retin A products
- Who are pregnant
- Who are under the age of 16

Skin Cancer alleged to have been caused by this therapy.

Treatments must only be carried out by a trained therapist with a minimum of a Level 3 Beauty Therapy qualification, a nurse or doctor.

A patch test must be performed on the client at least 24 hours before the first treatment.

Subject to all other terms and conditions of the policy.
